# **OLDHAM**

*No compromise on light performance*

### **'D' series caplamp**

#### ***The Worthy Successor***

#### **Approved for Coal Mines**

Backed by Oldham's vast experience in building solid, reliable caplamps with top notch light performance, the 'D' series features:

- *LED technology and light performance that will eclipse even the 'G' series miners have relied upon for many years and leaves the others in the shade.*
- *Reduced weight in both the headpiece and battery.*
- *Reduced maintenance costs – LED life is up to 15 times a halogen bulb.*
- *Minimal changes required to existing 3 stage charging equipment.*
- *A battery with capacity to burn – up to 12 hours – and run your ventilated helmets.*
- *Versatility. The new LED headpiece will fit with existing Oldham batteries and the new battery will fit with existing Oldham headpieces.*
- *Economical cost of ownership.*
